

Jim -
see Bob's attached
note. I'm not sure
that I agree with his
view. The reviewing
function he implies
is already (and
properly, for this sort of
thing) delegated to
Ch D/b's. I don't see
that you can add
to the operation except
as you might be
acting as Otto's agent -
25X1A9a of [REDACTED] normally
fulfills this "party-line"
variety of review. D -
